THE WORLD'S MOST ADVANCED SERVICE PLATFORM

Health Village offers an opportunity to digitalize health care services with a tested, ready-made concept. The concept consists of the eHealth development program and IT service platform. The eHealth services provided to various patient segments are available from a single IT platform. The development program combines Health Care and IT expertise and provides the optimal benefits for the patients.

VALIDATED eHEALTH DEVELOPMENT PROGRAM

You'll be provided with a standardized and clearly-defined development program for eHealth services. The program is backed by a wealth of experience, studies and references from the health care sector. The Health Village story and benefit descriptions facilitate the marketing and sales of the concept. The development program steps and tools support service development and consulting at different stages.

AS A CONSULTANT, YOU'LL RECEIVE THE FOLLOWING BENEFITS

- ✔ You'll be provided with functional tools for updating your customer's eHealth services
- ✔ An extensive partner network and continuous development are the benefits of cooperation.
- ✔ The concept can be flexibly applied to each customer's situation and maturity level.
- ✔ A new opportunity to expand health care consulting.
