

HeaTher Pathway

A UNIQUE AND MODERN
DIGITAL CARE PATHWAY
FOR MULTIDISCIPLINARY
HEADACHE THERAPY

HeaTher Pathway® is part of Digital Health
Village eHealth services. All digital care
pathways utilize the same IT platform and tools.

HeaTher Pathway for Multidisciplinary Headache Therapy

DIGITAL CARE PATHWAY
IS AVAILABLE 24/7

Patient follows HeaTher Pathway and contacts professional when needed via the digital care pathway message channel. Professional monitors patient's progress.

- Designed by university hospital tertiary care headache specialist and multidisciplinary team
- Individual symptom and disability follow-up by mobile diary
- Scalable service - more patients with same resources
- Increased availability, increased patient satisfaction
- Easy message channel between patient and professional

Digital Health Village® is revolutionizing health and well-being services by digital means. The services are enabled by a custom-made cloud-based IT platform and have been designed and built together with patients, healthcare professionals and patient organizations using the process, tools and templates of the Health Village eHealth Development Program.

The Health Village concept has been developed in cooperation with the Finnish university hospitals. Helsinki University Hospital coordinates the development.
